Technical drawing of dust collector T00-0475. The drawing shows a cross-section of a cylindrical unit with a rounded bottom. Dimension A is the total diameter, indicated by a horizontal arrow at the top. Dimension B is the total height, indicated by a vertical arrow on the right. The drawing includes a top flange with a gasket and a central vertical pipe with a horizontal section at the bottom.

Technical drawing of dust collector T08-0394. The drawing shows a cross-section of a cylindrical unit with a rounded bottom. Dimension A is the total diameter, indicated by a horizontal arrow at the top. Dimension B is the total height, indicated by a vertical arrow on the right. The drawing includes a top flange with a gasket and a central vertical pipe with a horizontal section at the bottom.

Technical drawing of dust collector T10-0311. The drawing shows a side view of the cylindrical unit with a top lid and a bottom outlet. Dimension A is the diameter of the top lid, dimension B is the height of the main body, and dimension C is the diameter of the bottom outlet. A cutaway view shows the internal filter assembly.

T12-0355	303.5	60

Technical drawing of dust collector T12-0355. The drawing shows a side view of the unit with a cylindrical top section and a wider base. Dimension A is the total length of the unit, and dimension B is the height of the base section. A vertical dashed line indicates the center of the cylindrical part.

Technical drawing of dust collector T12-0399/T14-0438. The drawing shows a side view of the unit, similar to T12-0355 but with a different base height. Dimension A is the total length, and dimension B is the height of the base section. A vertical dashed line indicates the center of the cylindrical part.
